

2. (Amended) A top box for a gaming machine, comprising:

a substantially non-rectangular gaming machine top box housing having a substantially hollow interior;

a door having a display panel; and

means for operably attaching the door to the housing so that the door may be opened and closed.

3. (Amended) A top box for a gaming machine, comprising:

a substantially non-rectangular gaming machine top box housing having a substantially hollow interior;

a door having a display panel; and

means for rotably attaching the door to the housing

9. (Amended) A top box for an upright gaming machine, comprising:

a gaming machine top box housing having a substantially hollow interior;

a door having a display panel; and

a hinge operatively attaching the door to the housing.

10. (Amended) A top box for an upright gaming machine, comprising:  
  
a gaming machine top box housing having a substantially hollow interior;  
  
a door having a display panel; and  
  
means for operably attaching the door to the housing so that the door may be opened and closed.

11. (Amended) A top box for an upright gaming machine, comprising:  
  
a gaming machine top box housing having a substantially hollow interior;  
  
a door having a display panel; and  
  
means for rotably attaching the door to the housing.

17. (Amended) A top box for a gaming machine, comprising:  
  
a gaming machine top box housing having a substantially hollow interior and a side portion;  
  
a door having a display panel; and  
  
a hinge operatively attaching the door to the side portion of the housing.

18. (Amended) A top box for a gaming machine, comprising:

a gaming machine top box housing having a substantially hollow interior and a side portion;

a door having a display panel; and

means for operably attaching the door to the side portion of the housing so that the door may be opened and closed.

19. (Amended) A top box for a gaming machine, comprising:

a gaming machine top box housing having a substantially hollow interior and a side portion;

a door having a display panel; and

means for rotably attaching the door to the side portion of the housing.

27. (Amended) A top box for a gaming machine, comprising:

a substantially non-rectangular gaming machine top box housing having a substantially hollow interior;

a door having a display panel; and

means for rotably attaching the door to the housing.

33. (Amended) A top box for an upright gaming machine, comprising:  
  
a substantially non-rectangular gaming machine top box housing having a substantially hollow interior;  
  
a door having a display panel; and  
  
a hinge operatively attaching the door to the housing.

34. (Amended) A top box for an upright gaming machine, comprising:  
  
a gaming machine top box housing having a substantially hollow interior and a side portion;  
  
a door having a display panel; and  
  
a hinge operatively attaching the door to the side portion of the housing.
